WE HAVE A COMMITMENT TO SUSTAINABILITY BASED ON THREE AXES AND NINE GUIDELINES ALIGNED WITH OUR PURPOSE

1

To take care of **people's** health:

1.1

To encourage employee quality of life and to offer a work environment that promotes equality and respects differences

1.2

To promote customer health and well-being, encouraging health habits, access to products and services and close treatment follow-up

1.3

To back social initiatives that support health and well-being at the communities we serve

2

To take care of **business'** health:

2.1

To encourage dialogue and generate long-term value for our stakeholders

2.2

To work with suppliers and service providers in line with our values

2.3

To promote employee personal and professional development, to always prepare leaders

3

To take care of the **planet's** health:

3.1

To minimize the use of natural resources and to protect the effects of construction in our stores, DCs and office projects

3.2

To reduce business-generated waste and provide for the adequate disposal thereof

3.3

To reduce the socioenvironmental impact of our distribution process

Successfully Navigated a Challenging Year

- › Achieved strong and sustainable efficiency gains that allowed us to sustain minimal margin loss when compared to an inflation-boosted 2016 (0.2 p.p.)
- › Expanded the retail cash margin (excluding the NPV adjustment) by 0.1 p.p.

Achievement of Several Strategic Milestones

- › Opened 210 new stores and gained significant market share while maintaining store productivity
- › Introduced a new store identity for Drogasil, aligned with the brand's positioning to enhance shopper experience
- › Rolled-out a new loyalty programs for Raia and Drogasil
- › Started the implementation of a new pricing platform, which will increase price discrimination across stores

Progress on Strategic Core Enablers

- › Started a cultural transformation by disseminating our Identity, Values and Purpose
- › Further improved the supply chain management, achieving a record low level of stock outs
- › Opening of a new distribution center in Salvador

CHALLENGES AND OPPORTUNITIES FOR THE FUTURE

As we progress along the strategic path envisioned in 2014 and wrap-up on the remaining initiatives, we have started to lay our eyes on the next cycle ahead. We have already identified three core levers for value creation that shall to be further explored:

Further Accelerate our Expansion:

- › We are the only drugstore chain in Brazil with brands already established in states that account for more than 90% of the Brazilian pharma market, delivering consistent revenues per mature store and high marginal returns
- › Leverage this unique national expansion platform and the lack of entry barriers to lead the industry's consolidation
- › Guidance of 240 new stores per year for 2018 and 2019.
- › We envision many more years of accelerated expansion with similar historic productivity and returns

Deliver a Customer-Centric Digital Experience:

- › Create a digital experience grounded on customer data and analytics, an omnichannel retail experience based on products and service personalization and high customer engagement across stores, apps, web-sites and social media
- › Stores will remain the cornerstone of the customer experience by delivering enhanced access, service and convenience, but digital will allow us to enhance the overall experience and relieve the pain-points from the shopping experience

Leverage our Healthcare Platform

- › **RD Health** already constitutes a powerful healthcare platform, which is already the undisputed leader in Brazil with health operators and corporations through Univas and 4Bio
- › Drive that platform to the next level, integrating our offerings, accelerating account growth and member adoption
